

Making a Flour-Drum Stove

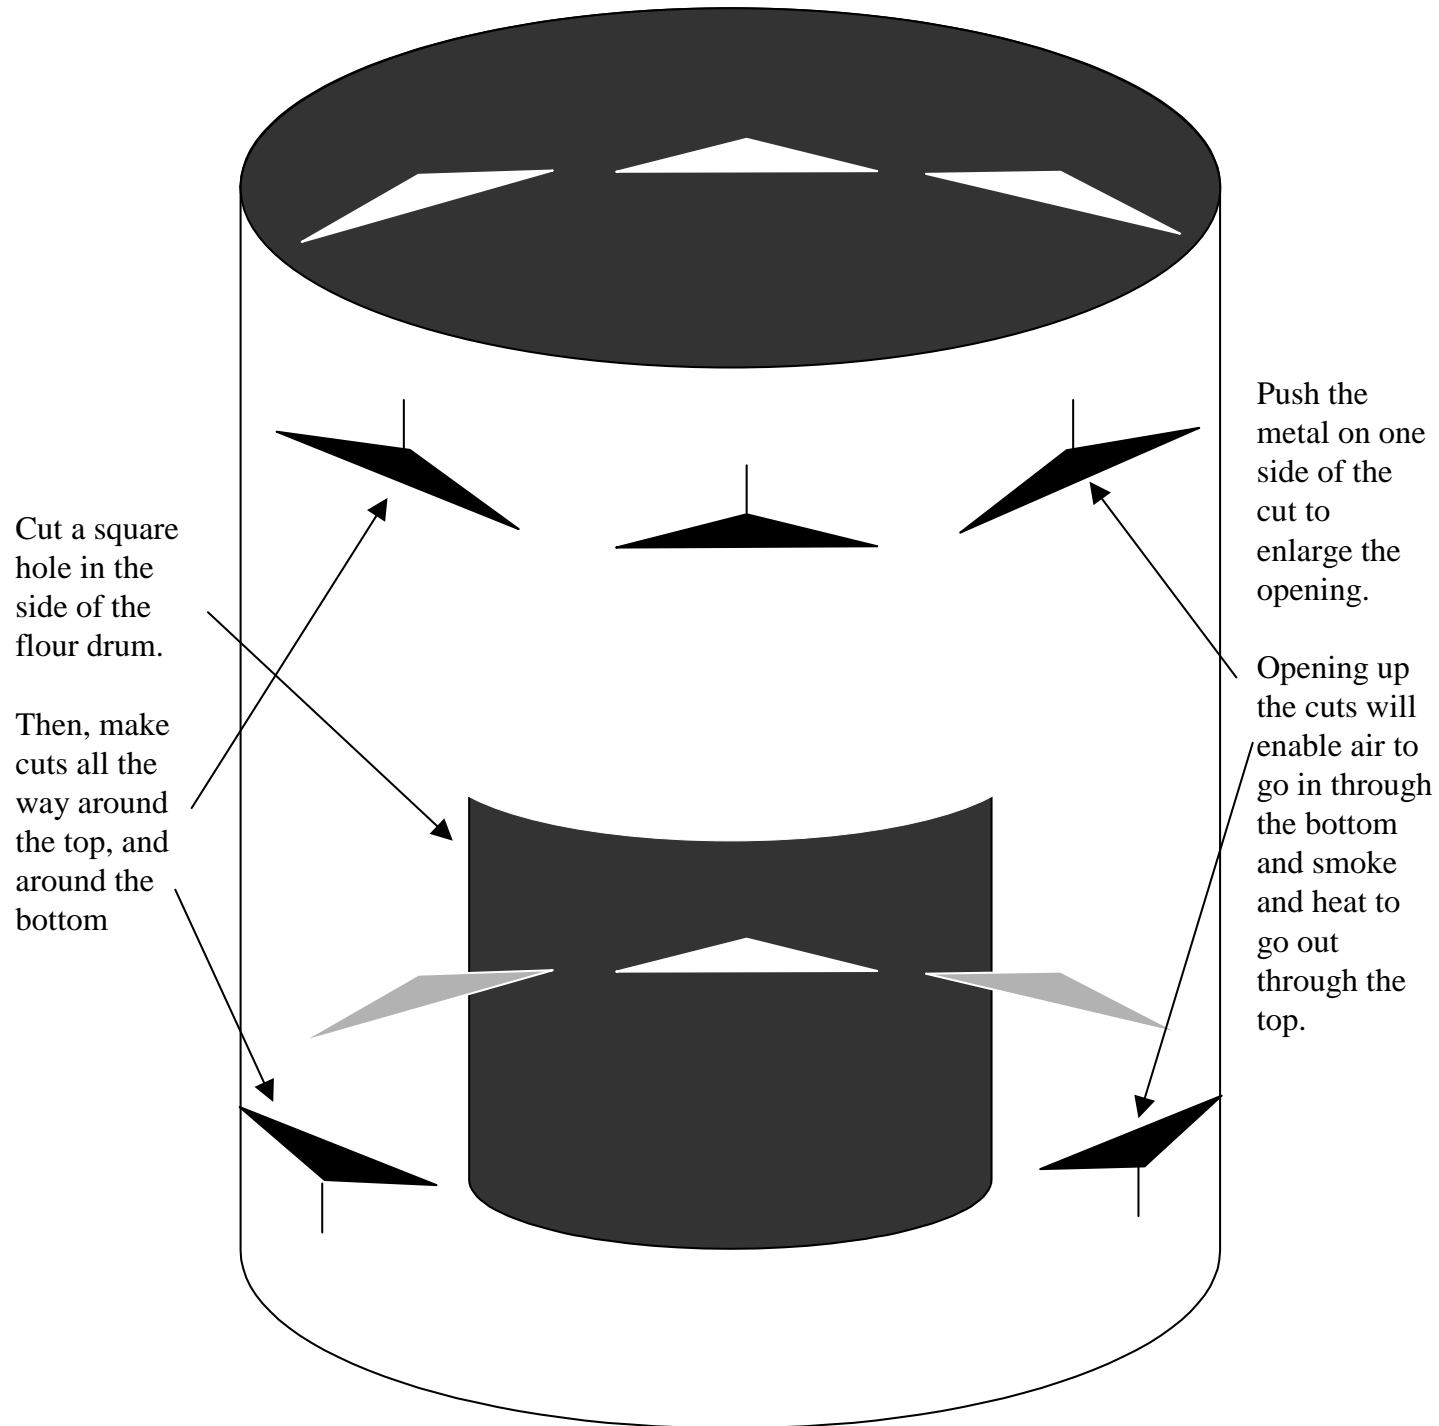

Photos by Barry Skipsey, Alice Springs
skip@desertexpress.com.au

To safely make a Flour Drum Stove
you will need the following
equipment:

- An empty flour-drum
- An angle grinder
- Ear protection
- Eye protection.

Making a Flour-Drum Stove[©]

Make the first
cut for the
fuel door

Always wear
eye and ear
protection
when using
an angle
grinder

Now make the second cut for the fuel door

Follow up with
the vertical
cuts for the
fuel door

Then, make the cuts for the air vents around the top and bottom of the flour-drum.

Now, push in
one side of
the cut to
open the vent

The finished product five minutes later, ready to begin cooking.
